Education

Tezpur University **July 2023 - June 2025**
Master of Computer Application(CGPA of 7.43) *Assam, India*

Lalit Chandra Bharali College **June 2019 - Sept 2022**
Bachelor of Science (Hons.) CBCS in Computer Science(CGPA of 8.45) *Assam, India*

Experience

FACE Prep **July 2025 – Present**
Computer Science Mentor *Chennai, India*

- Mentoring over **150+** students in **Design for Developers (UI & UX)**, **Front-End Web Development**, **Full-Stack Web Development**, **Software Engineering** and **EDA using Python**, delivering structured training aligned with Takshashila University's curriculum.

Chegg **Sep 2023 – Present**
Managed Network Expert (Subject Expert) *New Delhi, India*

- Working as a Q&A Expert, solved over **136** Computer Science questions on Chegg's Q&A platform, ensuring accuracy and adherence to academic standards.

TechVariable **Jan 2024 – May 2024**
Intern *Guwahati, India*

- Developed a user-friendly and intuitive video editing tool that enables users to manipulate and edit videos using hand gestures. The project utilizes computer vision and machine learning techniques to recognize and interpret the gestures, triggering specific editing actions within the software.

GDSC Tezpur University **Aug 2023 – May 2024**
Web Development Team Core Member *Tezpur, India*

- Enhanced the footer for the GDSC Tezpur University website

PageUpTechnologies **Jan 2024 – Mar 2024**
Full-Stack Intern *Guwahati, India*

- Oversaw converting and optimizing web pages from ReactJS to Laravel

Skaplink Technologies **Nov 2022 – Jul 2023**
Software Developer *Guwahati, India*

- Designed and improved **StoreFLEX**, a warehouse management system. Identified and resolved over **16** critical bugs in the website, improving stability and reducing user frustration by **3**%.

Projects

RideWise | *NextJs, NodeJs, PostgreSQL* | **Link** **Aug 2024 – June 2025**

- Designed a secure and user-friendly ride-booking platform leveraging PostgreSQL, Firebase and Mapbox API, implementing features like tracking, OTP-based verification and feedback systems using the Incremental SDLC model.

Todo List App | *ReactJS and Firebase* | **Link** **May 2024**

- Evolved a feature-rich Todo List App as a DBMS Lab mini-project for Spring 2024, enabling CRUD operations with tasks automatically sorted by priority and deadlines. Integrated search functionality for efficient task management and real-time updates.

Contacts | *ReactJS and Firebase* | **Link** **Dec 2023**

- Designed a simple CRUD web application for managing contacts, seamlessly integrating real-time data synchronization with Firebase, offering users a dynamic and efficient platform for saving and handling contact information.

Achievements

Qualified UGC-NET in December 2024 under Category-2
